

**SPECIFICATION**

Royal™ Collection Semi-Recessed Waste Bin shall have a capacity of 42.6 litres. Cabinet full front waste bin shall be formed seamless and shall have bowed front face and gently radiused edges to provide added strength and complimentary appearance for modern washroom aesthetics. Frame, waste bin and cabinet shall be fabricated of 22 gauge type 304 stainless steel alloy 18-8. All exposed surfaces shall have a satin finish and shall be protected during shipment with PVC film easily removable after installation. Waste bin with internal bag-hanger hooks shall have a fully hemmed top edge for safety and a rear handle for service ease and is retained by a tumbler lock keyed alike to other JD MacDonald washroom equipment. Face trim shall be formed from one piece with no miters, welding or open seams. Structural assembly of body and door components shall be of welded construction.

**INSTALLATION**

Mount unit in wall recess using № 10 self-tapping flat head screws (by others) through concealed mounting holes provided. For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use. Rough Wall Opening (RWO) required is 400mm x 660mm x 100mm.

**OPERATION**

Waste bin is emptied manually on cycle determined by maintenance requirements. Disposable liner bags (by others) may be hung on internal hooks or may be draped over rim and held in place when bin is locked into cabinet. Keyed tumbler lock prevents unauthorized removal.

**Semi-Recessed Waste Bin** shall be Model No. 20458 as supplied by JD MacDonald.

 All JD MacDonald disabled compliant products when installed must be in accordance with AS1428 to ensure the specified product is complying with all washroom specification requirements.
