

**Shown: Recessed Model No. 64623
Surface Mounted unit includes a trim**

SPECIFICATION

Surface Mounted Paper Towel Dispenser and Waste Bin unit shall hold and dispense 475 standard multi-fold or 350 standard C-fold paper towels and shall have a waste capacity of 8.4 litres. Cabinet, door, dispenser and waste bin shall be fabricated of alloy 18-8 stainless steel, grade 304. Cabinet shall be 20 gauge with a 25mm wide perimeter trim to lay flush against wall and have no exposed fastening devices. All exposed surfaces shall have a No. 4 satin finish and shall be protected by a PVC film easily removable after installation. Door shall be 18 gauge and shall be attached to the cabinet body with a full length 5mm diameter stainless steel multi-staked piano hinge, and shall be held closed with a tumbler lock keyed alike to other JD MacDonald washroom equipment. Towel dispensing slot shall have a fully deburred edge for snag free dispensing and user safety. Waste bin shall have a rolled edge hole for easy servicing and removal.

INSTALLATION

Unit is surface mounted on wall with No. 10 self tapping screws (supplied by others) through concealed mounting holes provided. Surface mounting collar is installed on cabinet prior to mounting on wall following procedure described on Surface Mounting Collar data sheet. For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use.

OPERATION

Paper towels are self feeding until supply is depleted. Unit will continue to feed properly when reloaded with a partial load in place. Waste bin is emptied manually on a cycle determined by maintenance needs. Locked door prevents unauthorized access or removal.

Surface Mounted Paper Towel Dispenser & Waste Bin shall be Model No. 64623-9 as supplied by JD MacDonald.

 All JD MacDonald disabled compliant products when installed must be in accordance with AS1428 to ensure the specified product is complying with all washroom specification requirements.
