

SPECIFICATION

Surface Mounted Facial Tissue Dispenser shall hold and dispense 300 single sheets of 150 two-ply sheets. Cover shall be fabricated of alloy 18-8 stainless steel, grade 304, 22 gauge. Towel dispensing slot shall have a fully hemmed-in rolled edge for snag-free dispensing and user safety. Back cover-mounting plate shall be fabricated of 22 gauge corrosion protected steel. All exposed surfaces shall be No. 4 satin finish and be protected during shipment with a PVC film easily removable after installation.

INSTALLATION

Mounting plate is surface mounted on wall or partition using No. 10 self tapping screws (supplied by others). Front cover snaps onto the back cover/mounting plate. For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use.

OPERATION

Towels are self-feeding from loaded supply box until supply is depleted. Unit is reloaded with opened full box and first sheet is fed through to slot to start. Maintenance needs determine service cycle.

Surface Mounted Facial Tissue Dispenser shall be Model No. 0258-SS as supplied by JD MacDonald.
