

### SPECIFICATION

Double Toilet Roll Holder with controlled delivery shall hold and dispense all standard core roll tissue, up to 152mm in diameter and be fabricated of cast aluminum with a satin matte silver-gray finish. The "no waste" rocking action spindle shall be fabricated of impact resistant, ABS thermoplastic and be theft resistant with a concealed release mechanism. Spindle shall rotate ½ revolution for each operation and return to its original position. Roll core shall not be removable until tissue is exhausted.

### INSTALLATION

Unit is surface mounted on wall or partition using self tapping screws (supplied by others). For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use.

### OPERATION

Spindles revolve ½ revolution for each operation and then return to its original position. Roll core prevents access to release pin and cannot be removed from spindle until exhausted. Unit is replenished by releasing a concealed pin which in turn releases a spring lock mechanism on spindle. Spindles operate independently.

### OPTION

Model No 0264-1A identical to 0264-1 except without controlled delivery. Model No 0264-12 identical to 0264-1 except with vandal resistant spindle locked into place by concealed set screw. Model No 0264-1A2 identical to 0264-12 with less controlled delivery.

**Double Toilet Roll Holder** with controlled delivery shall be Model No. 0264-1 as supplied by JD MacDonald.
